HOW TO USE THIS PLAYBOOK

This is the only viral real estate video document you need. Built from 36 proven blueprints plus 14 new ones extracted from the Crazy Simple YouTube book. Every blueprint is tier-tagged so you know which to film at your current channel size.

THE 5-STEP DEPLOYMENT FLOW

1. Pick a blueprint that matches your current subscriber tier.

2. Open the 3 R and D links. Watch the first 30 seconds of each. Note the hook and where they are standing.

3. Copy the 5 AI prompts. Paste into Claude, Gemini, or ChatGPT. Fill in your city and 3 local details only a local would know.

4. Capture your thumbnail first. Take 5 photos of the expression listed in the Thumbnail Spec. Do this BEFORE filming while your energy is high.

5. Record the hook 5 times with 5 levels of energy. Record the body in 30-second chunks. Upload using the SEO Package.

TIER SYSTEM

TIER 1: 0 to 1K Subscribers

Quick-win content. Fear, honesty, FAQ, regrets, education. Cell phone friendly. Solo on-camera.

TIER 2: 1K to 10K Subscribers

Building momentum. Neighborhood authority, listings, Power Team, comparisons. Slightly higher production.

TIER 3: 10K+ Subscribers

Established creator. Luxury tours, data forecasts, investment content, personal series. Drone, multi-cam.

THE 3-ELEMENT THUMBNAIL LAW

Every thumbnail has exactly 3 elements. More than 3 and the brain ignores it.

ONE Face: High-arousal emotion. Shock, smirk, jaw drop, concerned. Never neutral.

ONE Object: A house, a map with red X, a money sign, a price tag. High contrast.

ONE Text Overlay: 3 words max. Impact font. Yellow or white. Heavy black outline.

WORDS TO BAN FROM EVERY VIDEO

If your script or description has any of these words in it, the viewer instantly feels they are reading AI content. Trust drops. Watch time drops. Leads drop. Strip every one of them before you upload.

STEP 1. Memorize the ban list:

- leverage
- unlock
- delve
- transformative
- seamlessly
- paradigm
- harness
- game-changer
- it is important to note
- in conclusion
- in summary
- ultimately
- every em-dash character (use a period or comma instead)

STEP 2. Paste this rule into your AI tool's custom instructions today:

PASTE INTO CLAUDE OR CHATGPT CUSTOM INSTRUCTIONS

Never use these words or phrases in anything you write for me: leverage, unlock, delve, transformative, seamlessly, paradigm, harness, game-changer, it is important to note, in conclusion, in summary, ultimately. Never use em-dashes. Use periods or commas instead. Write in direct, plain language. Skip preambles. No 'great question' or 'happy to help'.

STEP 3. After every AI generation, use Find and Replace in your doc:

Open your script. Press Cmd+F (Mac) or Ctrl+F (PC). Search each banned word one at a time. If it shows up, rewrite that sentence. Repeat until every word returns zero matches. This takes 90 seconds and saves the video.

STEP 4. Read the script out loud before recording:

If a sentence sounds like a robot wrote it, change it to how you actually talk. If you would not say it to a friend at coffee, do not say it on camera.

PROMPT

Act as a YouTube hook copywriter for Coach Aaron Cuha's Crazy Simple YouTube system. Write 5 different 15-second hook variations for a video titled 'Never Buy These Homes in [CITY]'. Formula: shock statement + dollar figure + reason to keep watching. Voice rules: direct, no fluff, no em-dashes, follow the AI-clichés blacklist shown on the intro page of this playbook. Output 5 numbered hooks. Use [CITY] and [LOCAL DETAIL] placeholders.

PROMPT 2 of 5: WRITE THE FULL SCRIPT

PROMPT

Act as Coach Aaron Cuha, host of Crazy Simple YouTube. Write a complete 8 to 10 minute YouTube script for 'Never Buy These Homes in [CITY]'. Use the Fear and Warning viral pillar. List 7 specific home types to avoid in [CITY]: bad HOAs, flood zones, post-tension slabs, busy roads, school district mismatches, problem builders, outdated floorplans. For each: red flag, dollar cost, what to buy instead. Structure: 15-second hook, 15-second intro, why-it-matters block (90 seconds), main content (6 minutes), reality check (60 seconds), CTA (60 seconds). Voice rules: follow the AI-clichés blacklist on the intro page of this playbook. No em-dashes. Insert 3 [LOCAL DETAIL] placeholders the agent fills in with insider knowledge only a local would know.

PROMPT 3 of 5: GENERATE 10 TITLE OPTIONS

PROMPT

Generate 10 viral YouTube title variations for 'Never Buy These Homes in [CITY]'. Rules: under 70 characters, include the city name, include a specific number when possible, use the Fear and Warning psychological angle.
